

The **MAJOR TENSIONED** is a motorized projection screen suitable for medium to large size rooms, both in Home Cinema applications and in A/V Professional where attention to details is very important.

Its peculiar tensioning system on each side is distinguishing for a dual aspect: the specifically developed curved sides and the tensioning chords that follow the descent of both sides of the surface.

It is supplied, as a standard, with black side curved borders, a black top drop 30 cm. high (customizable), a black bottom border and a black dowel bar.

Thanks to the borders all around, the image will be perceived as sharper to the spectator's eye.

Available in 4:3, 16:9 and 16:10 ratios or **bespoke sizes**.

TECHNICAL SPECIFICATIONS

- Silent motor system provides a smooth and quiet operation
 - Power: **10 Nm**
 - Speed: **17 rpm**
 - Power supply: **230V / 50 Hz**
 - Consumption: **156 W**
 - Certification: **IMQ**
- Totally manufactured from aluminium
- Housing dimensions: 124x133 mm. (DxH)
- Housing painted with white epoxy powders (RAL 9010)
- Four universal mounting brackets either for ceiling or for wall included
- On/off switcher included
- Power cable located at the **right** side of the screen housing seen from the front
- Flame-retardant projection surfaces
- Black side borders of 5 cm. (in the narrowest point), black bottom border of 5 cm., black top drop of 30 cm. and black dowel bar: height 35 mm. depth 20 mm.
- Hour-shape glass tensioning system to provide perfect flatness
- **Screen housing available in different colours** (optional)
