

SpacePole Arc VESA 75/100 Pole Mount, Top Screen Mount - 02

SPV1302-02

The top mount is used when the solution requires space for the attachment of other peripherals such as a swing arm for a printer or payment terminal to the SpacePole – in addition to the screen. This type of mounting solution is particularly useful where the actual space on the counter itself is limited. Raising the technology above the counter frees up any space that is available.

Suitable for screens ranging from 1 - 12kg

Compatible with VESA 75 and VESA 100 mounting hole patterns

Suitable for common POS screens

Enhances workstation productivity by enabling optimal screen placement within the operator's eyeline

5-year warranty
