Product Description

The ViewSonic TD2760 is an ideal solution for both commercial and consumer touch screen applications. With an intuitive 10-point multi-touch display and a full 1080p HD resolution, the 27-inch TD2760 delivers a versatile solution for use in the office or at home, as well as for use as an information kiosk in public areas, retail, and corporate sectors. SuperClear® technology with ultra-wide viewing angles and 50M:1 MEGA Dynamic Contrast Ratio bring greater definition and clarity to multimedia content. For added convenience, cross-platform compatibility works with operating systems such as Windows 10/11, Linux, Chrome, and Android.* Built-in connectivity options include DisplayPort, HDMI, and VGA ports along with a VESA mount design, offering additional convenience for use as a wall-mount display. Additionally, the RS232 port provides local control for other RS232 connected devices, while HDMI CEC offers local control of multiple connected devices such as HD set-top boxes, media players, and sound systems. Even more, the ergonomic stand makes it easy for the user to tilt and raise the monitor, or lay it flat for the most natural position, and create a comfortable working environment. Lastly, low power consumption with Energy Star certification saves energy costs while reducing carbon emission. *Supports Windows 7/8/10/11, the latest Linux Kernel 4.X/3.X, the latest Chrome version, and Android 6.0 & 7.0
