Clear Coverage

No need to hide that colorful iPad Pro® behind the case to fully protect it. Its back cover is made with a clear, shock-absorbent TPU, so you can show off the color of your device while keeping it wrapped in protection. Not only protective, but functional, its precision cutouts allow access to all ports and buttons and ensures the camera is accessible for photos or videos without removing it from the case.

Easy Portrait and Landscape Viewing

The patented, 360° rotating tray design makes for a smooth and easy shift from portrait to landscape mode. Plus, you can unfold the cover to serve as a stand, so your video conferences and FaceTime® calls are in the most comfortable viewing position.
