

MPN: VL120015

HDMI HDCP Converter

Vivolink HDMI HDCP Convert 2.2 to 1.4

The VL120015 is an ultra-thin HDMI signal manager. It is designed to enhance the compatibility between HDMI sources and displays to match more display device. The transmission of 4k×2k@60Hz (max) signal from source to display is up to 15m. Beside straight-through HDMI transmission, the EDID bypass function ensures the best resolution of displays. The unit can be powered by HDMI source or with external power supply via Micro-USB.

Simple installation and operation.

- Input supports HDCP2.2
- Supports EDID bypass and auto input resolution detection, make sure the best resolution of display device
- The transmission of 4k@60Hz 4:4:4 signal from source to display is up to 10m
- Degrade to HDCP1.4
